EVALUATING DSCR TRACK CONDITIONS IN THE 232 PORTFOLIO

TRACK CONDITIONS

- FAST:** Dry, even track surface.
- WET-FAST:** Wet track surface, but base is firm.
- GOOD:** Nearly dry track, may have some moisture.
- SLOW:** Wet track on the surface and base of the ground.
- MUDDY:** Completely wet track with no standing water.
- SLOPPY:** Track has absorbed water with visible standing water.

Financing Seniors Housing for America

PASS vs. NSPIRE

Past State

- Lender orders the inspection through PASS
- Master Scheduler schedules inspection with the project
- Inspection occurs and Project POC submits EH&S certification 93332 to Lender
- Lender uploads EH&S certification 93332 in Healthcare Portal
- AE reviews 93332 and closes out inspection in IREMS

Current State

- REAC orders inspection and sends to Lender's Master Scheduler
- Master Scheduler schedules the inspection with the project
- Inspection occurs and LT&S populates in NSPIRE Salesforce system
- **Project POCs registered in NSPIRE** will receive an email within 24hrs notifying them of LT&S deficiencies.
- Project POC submits evidence of mitigation and EH&S 93332 in NSPIRE Salesforce within 48hrs of receiving LT&S notice
- AE is responsible for reviewing mitigation and approving in NSPIRE Salesforce
- REAC continuously sends out reminder emails to Project POCs until LT&S items have been mitigated in NSPIRE Salesforce

OBSERVATION vs. RESOLUTION

Observations

- POC contact information in NSPIRE is coming from IREMS, often leading to the incorrect persons being assigned as the NSPIRE POC for mitigation and all email correspondence.
- No reporting capability for Lenders
- No NSPIRE Scores
- Changes to the inspection report
- Reports should download as pdf files instead of HTML files

Resolution

- REAC is working to resolve this issue, and we have offered recommendations.
- REAC orders inspections and sends to Lender's Master Scheduler.
- Master schedulers have the capability of pulling reports in the system for Lenders.
- The final NSPIRE inspection score is released 45 days after the review of the inspection.
- ORCF has requested the FHA number and Project name be added to the NSPIRE inspection report and it has been added to their list.
- REAC is aware of this issue and it's on their list to correct.

NSPIRE Registration

- BE PROACTIVE!! Project POCs will need to register for NSPIRE Salesforce accounts to upload the LT&S mitigation within 72 hours.
- Registration is strongly encouraged prior to the inspection occurring. This will help to alleviate delays with uploading the mitigation into the NSPIRE Salesforce system.
- Contact the REACTAC Helpdesk to request access:
 - If you do not have access to the NSPIRE system, or if you need assistance to reset your password, please contact the **REAC Technical Assistance Center (TAC) at 1-888-245-4860**.
 - If you or your staff need access to the NSPIRE Salesforce system, complete this [Excel spreadsheet](#) with the proper names and submit it to reactac@hud.gov. Once it's verified, the contacts will get access.

NSPIRE Resources

NSPIRE TOOLKIT: CLOSING OUT DEFICIENCIES AND SUBMITTING APPEALS

- [PDF NSPIRE Technical Review Guidance for Property Representatives](#)
The Technical Review Guidance PDF provides a summary of the basis for technical review along with instructions for how to submit an appeal in the NSPIRE system.
- [PDF for Entering Health & Safety Corrections Using Salesforce](#)
This guide highlights the requirements for resolving deficiencies using the NSPIRE system and offers guidance on how to provide supporting evidence of deficiency correction.
- [PDF Toolkit for PHA or Property Owner Agent Users](#)
View or download this PDF for instructions for PHAs and POAs on how to gain access to, log in to, and use Salesforce to close out Health & Safety deficiencies following an NSPIRE Demonstration inspection.
- [Training Video for PHA and POA Users](#)
This video is for property owners and agents who have received an NSPIRE inspection of record. It shows how they would interact with the NSPIRE IT solution.

Lender Updates – Greystone

- As of 09/30/2024, Greystone portfolio consisted of 347 loans insured under the 232 program with an OPB of \$4.81 billion
- 19 loans in default (includes 11-facility and 4-facility portfolio) totaling \$241 Million
- 46 Active Consents
 - 28 active CHOW/CHOPs
 - More complex transactions; master lease, A/R, master lease release
 - PALs including conditions to fund Debt Service Reserve Escrow and/or Quality of Care Escrow
- Payoffs
 - 2 prepayments YTD
- RSD
 - More manageable with quarterly distribution

Lender Updates – Greystone

- CMS
 - Challenge – getting in front of facility closures; loss of license - Lender is the last to know
- Risk Management Assessment
 - One-time vs. ongoing
 - Incorporating into an Action Plan within 14 days post-closing
 - Differing expectations
 - Project not always available in the portal within 14 days of closing
- 10-Year PCNA
 - HUD is willing to work with lender or borrower when significant increases are forecasted or recommended
 - HUD has provided Greystone with a draft 10-year PCNA checklist that is expected to be posted to the 232 website soon
- Other
 - Identifying liens, foreclosure actions, judgment on facilities as part of everyday surveillance

Lender Updates – Newpoint

- Portfolio Breakdown:

As of 10/31/24	ALF	ALF & SNF	SNF	Hospital	Healthcare Subtotal	MF	Total FHA
Loan Count	48	10	236	1	295	74	369
UPB	\$482M	\$119M	\$2.94B	\$11.5M	\$3.55B	\$1.33B	\$4.89B

- Delinquencies:

As of 10/31/24	30+	60+	90+	Total
Loan Count	1	0	3	4
UPB	\$16.5M	\$0	\$21.1M	\$37.7M
Percentage	0.34%	0.00%	0.43%	0.77%

Lender Updates – Newpoint

Asset Management Transaction Volume:

Transaction/Request Type	HC	MF	Total
Changes of Ownership	17	1	18
Changes of Operator	26	-	26
Change/Amend AR Financing	7	-	7
Change of Management Agent	1	1	2
DACA/DAISA	2	-	2
Release from Master Lease	4	-	4
Change of Collateral	7	1	8
Review/Submission of Action Plans	75	-	75
DSRF Releases	10	1	11
R4R Disbursements and Suspensions	294	-	294
10-Year PCNA Submissions	22	5	27
Non-Critical Repair Escrow Release	46	11	57
Payoff By Assignment	1	-	1
Miscellaneous	8	3	11
Total	520	23	543

Lender Updates – Newpoint

- Rollout of NSPIRE Property Inspection Protocol
 - HUD failed to issue comprehensive communication delineating roles and responsibilities of each participant such as the lenders, master scheduler, property owners and HUD asset management personnel
 - Insufficient training for transaction participants. Property owners are unaware of the procedures required to clear a reported deficiency or file an appeal for a corrected final score
 - Participant e-mail addresses were not vetted before deployment. NSPIRE inspection notices were not transmitted to active e-mail addresses or current transaction participants
 - The omission of utilities for lenders to create reports to track outstanding deficiencies on a portfolio basis
- Transaction complexity is delaying approvals
 - Insufficient training of HUD Account Executives with complex transaction structures is delaying approvals of asset management requests
 - HUD Account Executives should engage OGC following receipt of complex transactions

Lender Updates – Newpoint

- Suggestions for HUD
 - HUD needs to re-calibrate the Lender RSD reports
 - Financial statements on the RSD are stale
 - HUD should factor credit support into the decision on whether to determine whether an Action Plan is necessary
 - HUD should create a decision matrix for controlling and passive ownership changes (CHOPs)
 - Lender engagement for enhancement to financial reporting portal
 - HUD should consider Account Executive assignments factoring in project sponsors
 - Impose civil monetary penalties for operators that fail to submit quarterly operating statements
 - Creating a form of notice from CMS for secured lenders of events that impose considerable financial risk to secured lenders

Why the long face?

Trends in Healthcare Asset Management

John Galeros, Walker & Dunlop

History

- COVID – Staffing, PPE, Census
 - “We’re just trying to keep the doors open, stay supplied, and stay safe...”
- Agency Staffing/Inflation
 - “We made it through COVID, but now prices are high, and Agency Staffing is expensive”

Current Trends

- Small Operators Struggling
 - Tertiary Markets
 - Mom/Pops
- Consolidation
 - Large Players With Economies of Scale
 - Assuming Favorable Interest Rates

How to Pick a Winner?

Active Risk Management

Stake	Selection	Time & Meeting
1	UP FOR PAROL	2.05 HAY
1	ENGADE	9/1 2.40 HAY
1	ANN SAM	15/2 3.00 ACCOT
1	TRITONIC	9/1 3.35 ACCOT

£1 LUCKY IS
£1 EW ACCUM

TOTAL STAKE	RETURNS
£17.00	10,830.00

ALL BETS SUBJECT TO OUR RULES

Hobby Horse: The Bare Minimum

- Operator Quarterly Financials
- RSD Action Plans
 - Root Cause
 - Risk Mitigation Steps
